Type CA Spherical Roller Bearings

1. Product details

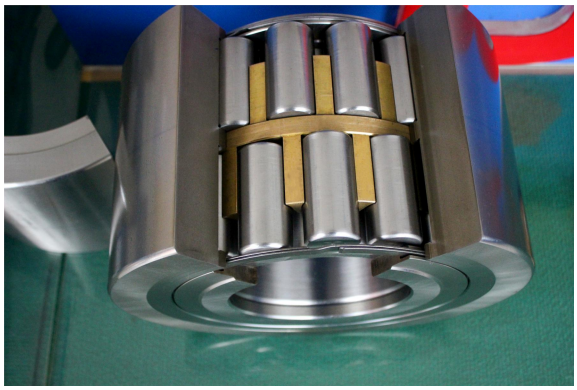
Spherical Roller Bearings - Type CA Spherical Roller Bearings-23228CCK/W33			
Brand	**HAXB**	**Enclosure**	**Open**
Diameter-Metric	**100*180*88MM**	**Number of rows**	**Double row**
Weight	**18.8 Kilogram**	**Rolling Element**	**Roller Bearing**
Ring Material	**Gcr15 Chrome Steel**	**Cage Material**	**Steel**
Precision Class	**ABEC-3 | ISO P6**	**HS Code**	**8482.10.20.00**
Internal Clearance	**C0-Medium/C3-Loose**	**Mounting Method**	**Shaft**
MOQ	**100PCS**	**Sample**	**Available**

2. Product Introduction

Self aligning roller bearings have double row rollers, the outer ring has a common spherical raceway, and the inner ring has two raceways and

is inclined at an angle to the bearing axis.

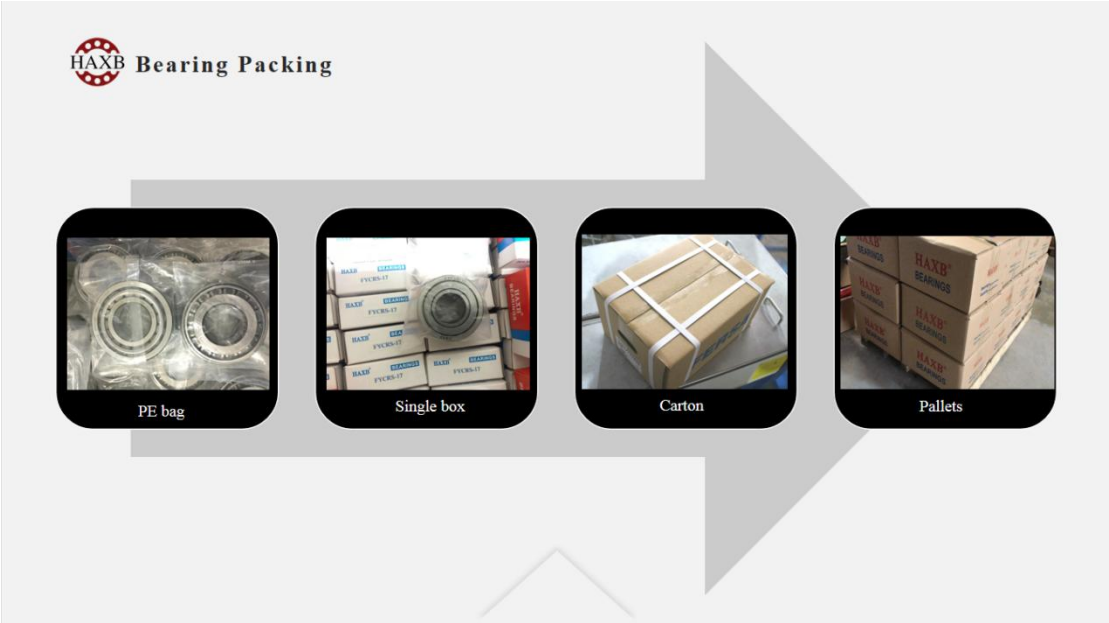
This ingenious structure makes it have self-aligning performance, so it is not easy to be affected by the error or shaft bending caused by the angle between the shaft and the bearing housing seat. It is suitable for the occasions where the installation error or shaft deflection causes the angle error. In addition to bearing radial load, the bearing can also bear axial load of two-way action.



3. Product Application

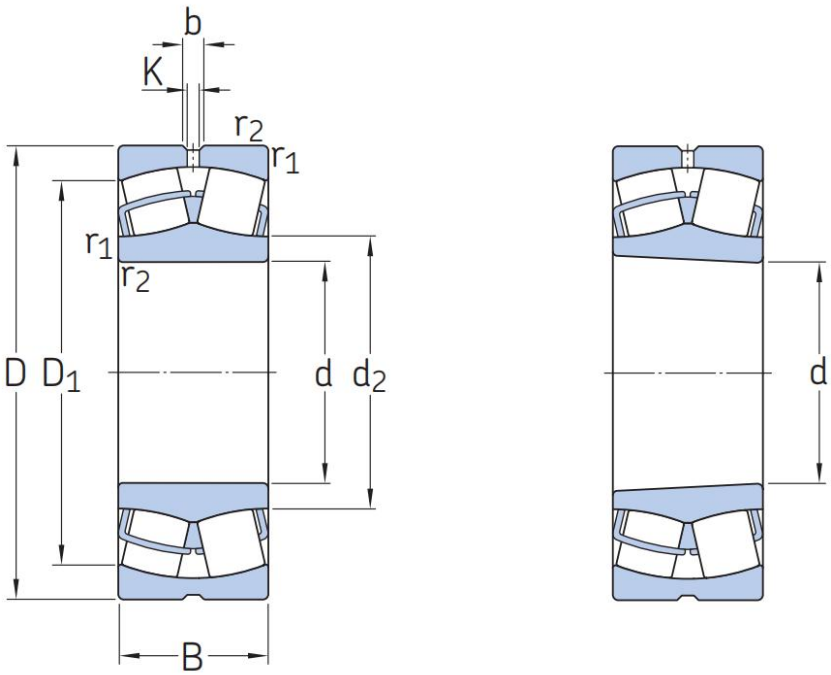
Spherical Roller Bearings' main applications: paper machinery, reducer, railway vehicle axle, rolling mill gearbox bearing seat, rolling mill roller, crusher, vibrating screen, printing machinery, woodworking machinery, reducer for various industries, vertical self-aligning bearing with seat.

4. HAXB Bearing Package



Waterproof transparent bag - Single Box - waterproof bag -haxb carton - wooden pallet

5. Relevant model



Bearing Type	Bearings Size/Metric		
	d/mm	D/mm	B/mm
23022CC/W33	110	170	45
24022 CC/W33	110	170	60

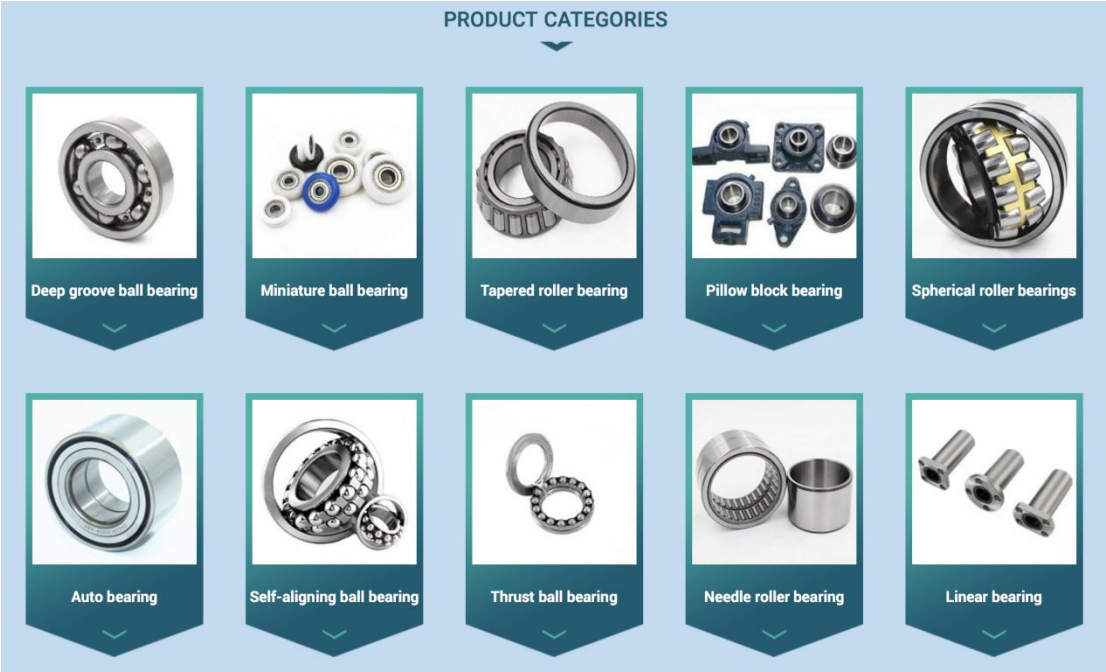
22324 CC/W33	120	260	86

6. Designs & Variants

Here is the Product catalog,



Special Variants:

In addition to the bearings presented in this section, deep groove ball bearings for special applications are shown under Engineered products.

These bearings include:

Sensor bearing units

High temperature bearings and bearing units

Bearings with Solid Oil

INSOCOAT bearings

Hybrid bearings

No-Wear coated bearings

For more bearing numbers,please kindly contact us.

4. Company Show

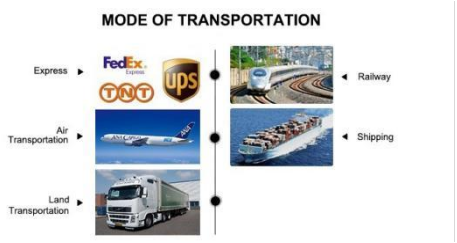
HAXB-Bearing is one of the largest professional bearing manufacturing companies in northern China,with a product range of more than 2500 sizes in stock (Products available from 10mm bore to 500mm bore diameter)

Bearings components are basic parts of most machines and equipment items, from large-size bearings used in mining applications to miniature ball bearings used in precision equipment.

5. Trade Shows

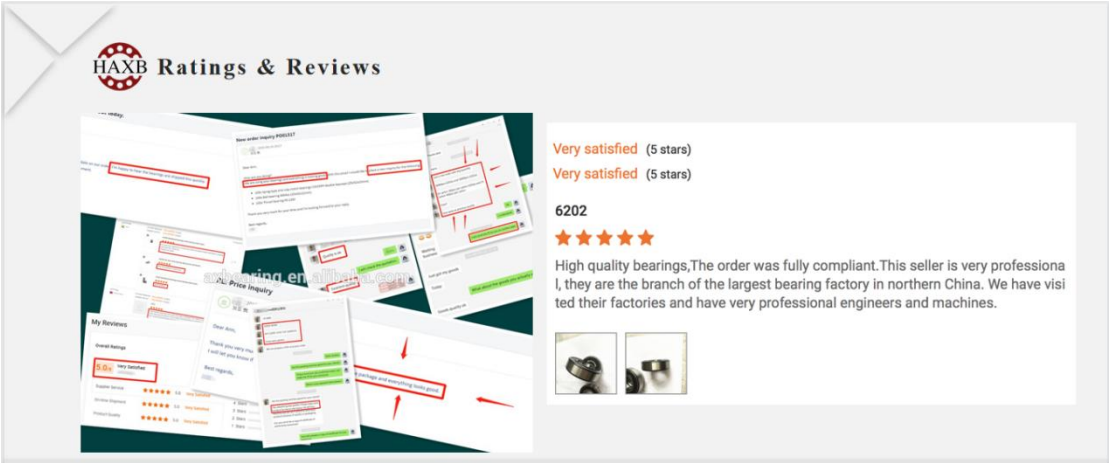
- **2018 China International Bearing and Special Equipment Exhibition Trade**
- **2016 China Canton Fair**
- **In 2015,Middle East Hardware Tools Exhibition**
- **2014 China Shanghai Bearing Exhibition**

7.Transportation & Delivery



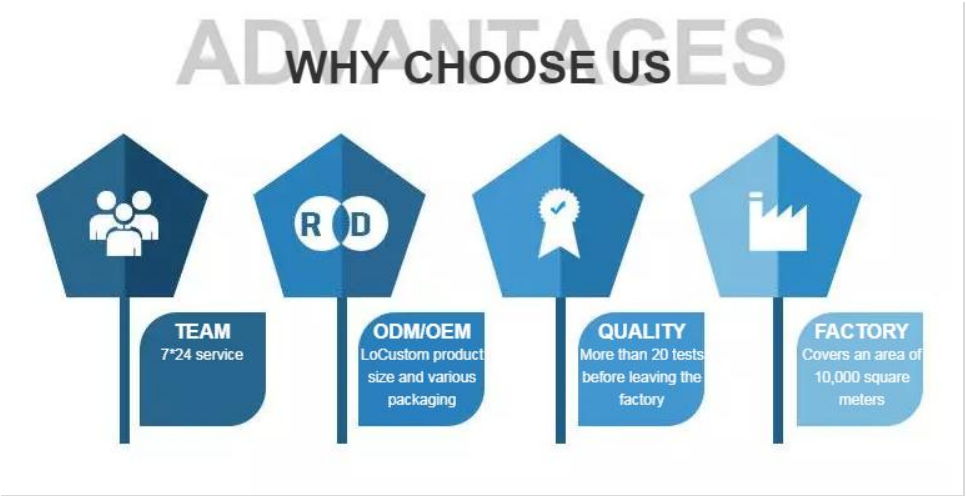
The mode of transportation depends on the quantity and weight of the goods. The commonly used modes of transportation are: express delivery, air transportation and sea transportation.

8. Why Choose Us



- **This is part of the customer feedback we collected.**

Working closely with customers, we provide cost savings suggestions, which result in increased productivity. Through continued product training and the latest product development information, we are able to bring added value to every customer's need.



Here is our company profile:

1. Main products: high-precision ball and roller bearings and automotive bearings, 24 years of bearing experience

2. Main business:

(1) HAXB - our own brand production and export

(2)OEM brand

(3) SKF licensor, the largest SKF licensor in Israel is our partner

3. Large customers in cooperation

Customers in 100 countries all over the world export 12 containers every month. Such as:Israel,Brazil,Bulgaria,Russia,Netherlands and so on.

9.FAQ

1.Are you factory or trading company?

We are an integration of industry and trade.Because of the large shipment, we have our own foreign trade company.

The factory and the trade company belong to one boss.

2.What is the quality can you provide?

We are focusing on high precision motor bearings,

ABEC-3/ABEC-5/ABEC-7 are available.

3.Can we do ourselves bearing brand?

Sure. OEM service is available. Packing design service is free too.

4.How long is the general production cycle?

Generally within 10-25 working-days.

The production time will be calculated according to the date of the customer deposit began.According to the quantity of the order.

6.How to detect the quality of your bearings?

Our factory has passed ISO9001 system certification. There are more than 30 testing equipments, first-class production,installation workshop,to ensure the bearing accuracy,life and other issues.

8. Can we visit your factory?

HAXB bearing welcome you!

A one-stop for all kinds of Bearings and Bearing Accessories

We look forward to starting a business relationship that will be mutually beneficial as well as lucrative.

If you need, please feel free to contact me.
